MEMORANDUM FOR: ALL C.I.G. EMPLOYEESSUBJECT: American Red Cross 1947 Fund Campaign

The American Red Cross Campaign for 1947 is underway. The funds raised in this campaign will, of course, be used to cover existing and continuing regular Red Cross services for the civilian welfare of our country. In addition to this health and educational service which this country, as well as other countries of the world, have come to know and accept as a matter of course, the American Red Cross has pledged its services and operations to the American Armed Forces at home, abroad, in occupied countries, and to our returned veterans and their families.

President Truman, in his statement to the Heads of Executive Departments, Commissions or Agencies, dated 7 January, has said, "During the coming year the war-related activities of the Red Cross will continue to be very extensive. Large numbers of men will still be in uniform. There are millions of veterans to whom the Red Cross has an obligation. Tens of thousands will be in Army, Navy and Veterans' hospitals for a long time to come. The Red Cross is trained and equipped through its thousands of Home Service workers to give the service needed, but it is imperative that the necessary funds be obtained to continue Red Cross operations on behalf of the Army, Navy and the veterans. To help raise the funds essential to finance this vast program, I desire that all departments of the Government cooperate wholeheartedly through the creation of an effective organization for the solicitation of their gifts."

Our share of the quota, which has been established for all Government agencies, is \$3,300. This quota can be obtained only from generous contributions on the part of each and every employee. National Red Cross Headquarters has indicated a scale of giving, which is in direct proportion to the salary of employees. This scale is as follows: Salaries ranging up to \$3,500 give \$5.00 to \$25.00 -- proportionately more from those with larger salaries. A definite scale will not be set for C.I.G., since I know that every employee will respond wholeheartedly and in keeping with his personal belief and financial circumstances.

During the month of March a fellow worker, who is a volunteer representative of the Red Cross, will ask you for your contribution. Your support, together with that of your fellow workers in C.I.G. will be our share and our goal.

SUBJECT: Christmas Decorations in Government Buildings

1. Quoted below is a memorandum received from the Office of Buildings Management, Federal Works Agency, Public Buildings Administration, regarding Christmas decorations in Government buildings:

"December 2, 1946

"TO: Chief Clerks and Administrative Officers of the  
Executive Departments and Independent Agencies  
SUBJECT: Christmas Decorations in Government Buildings

We would appreciate your cooperation in the enforcement of the following regulations regarding the placing of Christmas trees or Christmas decorations in buildings operated by this office.

A reasonable number of Christmas trees may be placed in buildings of fire-resistive construction and in frame buildings provided with automatic sprinkler protection. No trees will be permitted in frame buildings without such protection unless approval is given by the Superintendent. The trees should not be kept in buildings for more than seven days.

No cotton or other inflammable materials may be used for decorating the trees. No lighted candles will be permitted in any buildings. Electric lights will be permitted on Christmas trees and in buildings, if the installation of such lights is inspected and approved by the Superintendent. Inflammable decorations will not be permitted in buildings without the approval of the Superintendent. If the use of decorations and Christmas trees is contemplated for dances, parties, or other gatherings in Government buildings, prior approval must be obtained from the Superintendent.

Should there be any question concerning the interpretation of the above regulations, the Superintendent should be consulted.

The approach of a new year gives us an opportunity to reflect upon the accomplishments of the past twelve months, and upon the importance your cooperation and good will play in the effectual functioning of this office. Permit us at this time to express our sincere appreciation for the fine spirit of cooperation you have so frequently demonstrated.

MEMORANDUM FOR: All CIG Personnel

SUBJECT: Conservation of Fuel and Electricity

" November 21, 1946

"MEMORANDUM for Chief Clerks, Administrative Officers of the  
Executive Departments and Independent Agencies

SUBJECT: Conservation of Fuel and Electricity

Major General Philip B. Fleming has directed the Public Buildings Administration to take every necessary step to conserve the Government's fuel supply and the use of electricity. In view of the serious situation it will be necessary to return to war time heating and lighting schedules in Federal Buildings.

To meet the situation and to accomplish the maximum saving in fuel and electricity, it is very necessary that we have the full cooperation of all Government personnel. The steps that can be taken by Government personnel are:

1. Do not use unnecessary lights.
2. Keep windows and doors closed so that the inside air does not unnecessarily escape to the outside.
3. Heating units controlled by room occupants should be used to meet minimum heating requirements.
4. Heating units controlled by building operating personnel should not be disturbed by room occupants.

The operating personnel will take periodic readings of the temperatures throughout the buildings each day and will make whatever readjustments of the control equipment or operating procedure as are necessary or practical to keep the temperatures to minimum requirements. The supervisors of the night cleaning force will again instruct their employees to turn on, for the minimum length of time, only such lights as are essential to the performance of their work.

An occupants' program of monitor control over heat and light would be desirable and would materially assist in conserving fuel and electricity. A program of this nature would insure that windows are kept closed, radiators turned off to prevent overheating and lights turned out when not needed.

Your splendid cooperation in the past has been very helpful and your continued cooperation at this time will be deeply appreciated.

MEMORANDUM FOR ALL C.I.G. PERSONNEL

SUBJECT: Definition of Central Intelligence Group

1. Inquiries are continually being made by persons sincerely interested in the organization of the Central Intelligence Group. These persons include, of course, prospective employees as well as persons who merely know of the existence of such an organization, and upon meeting an employee of this Group they generally ask, in effect, "Just what is the Central Intelligence?"

2. In order that uniformity may be maintained in answering such inquiries, and in order that maximum possible security may be attained, it is believed that a uniform definition should be established. It is, therefore, proposed that the following definition of the Central Intelligence Group be used in response to inquiries which are inevitable and legitimate:

"The Central Intelligence Group is a recently created interdepartmental organization in which the State, War, Navy and sometimes other departments participate. It coordinates all activities of the Government involved in obtaining and analyzing information about foreign countries which this country needs for its national security. It also furnishes interdepartmental analyses of this type of information for use by Government officials."

This definition, while basically true, is unrevealing and should stop further curiosity.

1. During the formative period of the Central Intelligence Group, it is deemed necessary to announce an interim leave policy applicable to all personnel (military and civilian). Inasmuch as personnel are assigned from the State, War and Navy Departments, an effort will be made to comply, in so far as practicable, with the leave regulations of the three departments and still not penalize the personnel assigned from the department having the most stringent leave policy.

4. A maximum of sixteen (16) hours annual leave may be granted to civilian employees at any time, for other than vacation purposes. This leave will not be counted against leave authorized by paragraph 2 above.
5. Military personnel may be granted permission to be absent from the vicinity of Washington for a period of not to exceed forty-eight (48) hours (VOCO) which will not be counted as annual leave.

MEMORANDUM for Administrative Officers of the Executive  
Departments and Independent Agencies

SUBJECT: Conservation of Electricity

I am greatly concerned over the increase in our electric current bill. While there has been an increase in the rates there has also been a substantial increase in consumption. I believe it important that we again renew our efforts toward conservation to reduce our electric current bill.

Each employee in your department or agency can make a major contribution to this program. Possibly the greatest waste in the use of electricity occurs in lighting. We want the employees to use the light they need when it is needed, but when not needed the lights should be turned off. Desk lamps, where used, should be turned on only when needed. Each additional dollar that is spent for electric current means one dollar less in the amount available for other services in the buildings.

Your splendid cooperation in the past has contributed much toward our conservation programs, and I know that we can count on your continued efforts in that direction.

MEMORANDUM FOR ALL CIA EMPLOYEES

24 February 1948

SUBJECT: 1948 Red Cross Fund Campaign

The 1948 Red Cross Fund Campaign is now under way. The funds raised in this Campaign will be used to cover existing and continuing regular Red Cross services for the welfare of our country. The American Red Cross continues to aid sufferers in hurricanes, tornadoes, epidemics, fires and floods, as well as to give extensive services to members of our Armed Forces, to our veterans and their families. Its disaster service and expenditures for rehabilitation last year exceeded the record of any one of the previous ten years.

President Truman, in his statement to the Heads of Executive Departments, Commissions, or Agencies, dated 2 January 1948, stated in part:

"The several volunteer and educational services and Junior Red Cross serve the needs of their community and country. The new civilian blood program eventually will make whole blood and plasma available to all people - an indispensable service to prevent much needless suffering and loss of life. Abroad, the Red Cross field and hospital workers continue services to our Army, Navy and Air Forces - the largest in peacetime history - in the Arctic Circle, Europe, Asia, and the Pacific.

"A chief purpose of our government is to promote the health and welfare of our people. I desire as a most fitting corollary that all our government departments, commissions and agencies, wherever their employees may be stationed throughout the nation, actively cooperate with their respective Red Cross chapters in the 1948 Red Cross Fund Campaign to be conducted in March.

"We have ample power to relieve the burdens of our fellowmen and by generous acts of kindness and goodwill impel new life and hope. Each citizen through team-work in his Red Cross is serving his country and thereby building a stronger, more splendid America."

There is no doubt in my mind that every employee of CIA will wish to contribute to this Campaign wholeheartedly and in keeping with his personal belief and financial circumstances. It is to be noted that this Agency, during the 1947 campaign, made a total contribution of \$4,245.59.

You will soon be approached by a fellow worker who is a volunteer representative of the Red Cross. Your contribution will be your share in making the 1948 Campaign a successful one.

"Q" BUILDING CAFETERIA

The number of employees in this area utilizing the facilities of the cafeteria in Que Building taxes its capacity to the limit within the hours of service.

Numerous instances have been noted wherein patrons sit around the tables to talk and smoke after completing their meal, while others are waiting in line.

All employees are urged to cooperate by vacating tables promptly upon completion of their meal in order that there may be room for others.
